REGISTRATION AT KSOS PORTAL

Step 1

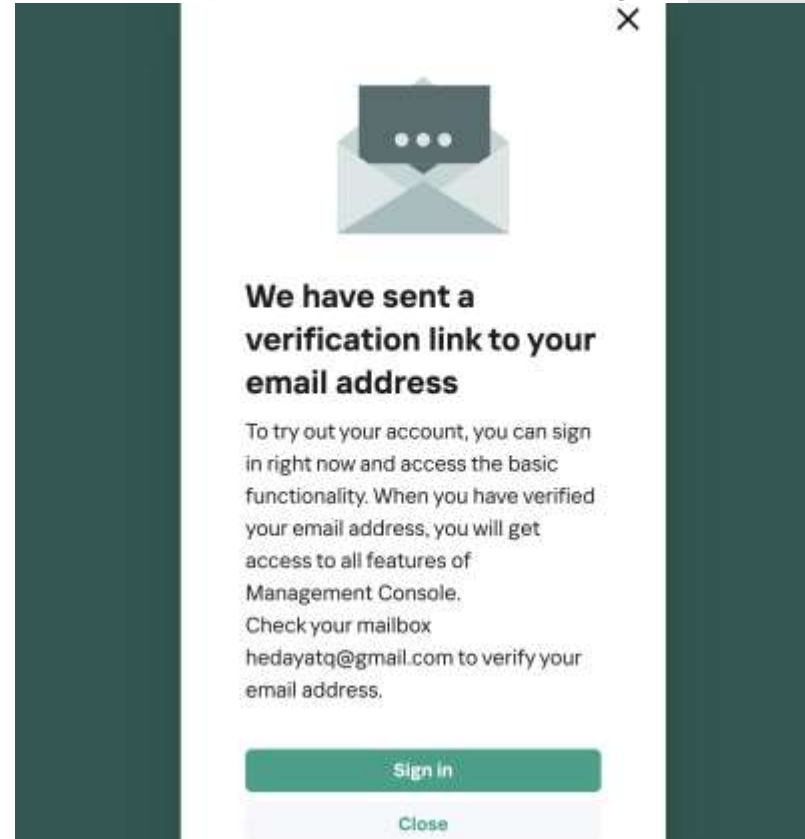

Log on: <https://ksos.kaspersky.com/> if you have registered KSOS account

The screenshot shows the registration interface for the Kaspersky Small Office Security Management Console. At the top left is the Kaspersky logo. The page title is "Kaspersky Small Office Security Management Console". There are two tabs: "Sign in" (selected) and "Sign up". Below the tabs are two input fields: "Email address" with the value "dayatq@gmail.com" and "Password" with masked characters. Below the password field is a checkbox with the text: "I confirm that I allow A/C Kaspersky Lab to use my email address to contact me by email about personalized special offers, reviews, surveys, order completion reminders, relevant news and events. I also understand that if I have given consent previously, or in any other case, I can at any time withdraw my consent by updating my account settings or clicking the unsubscribe link provided in related emails (Optional)". At the bottom is a green "Create account" button.

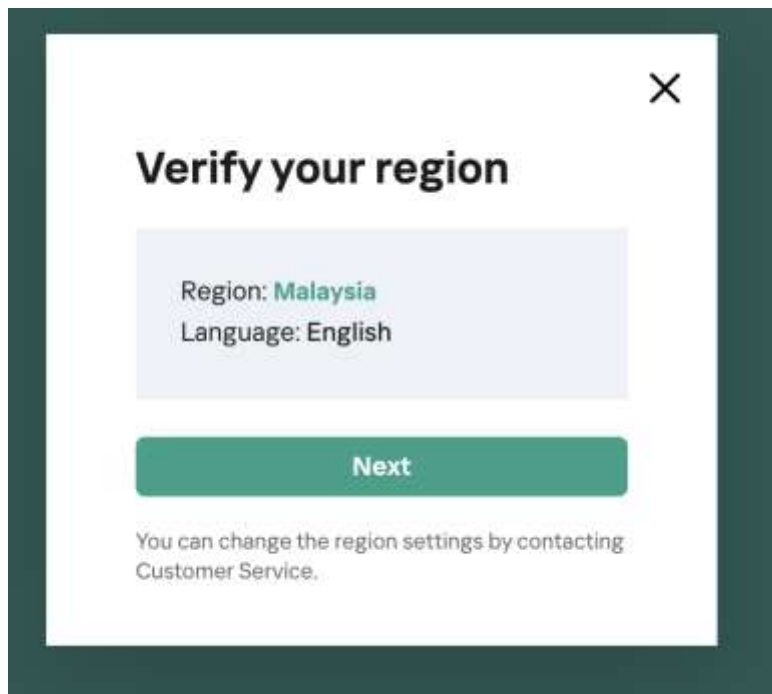

Step 2

For first time user, please **Sign Up and Create account**. Verify your email and click Sign In

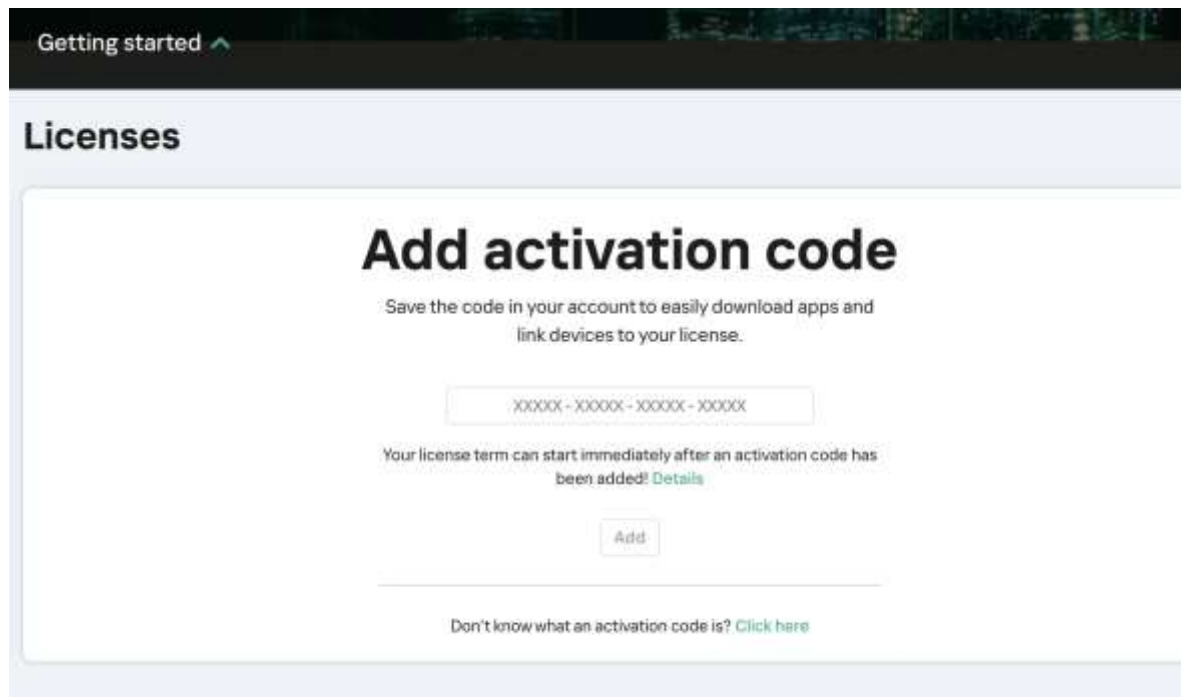

REGISTRATION AT KSOS PORTAL

Step 3
Verify your region

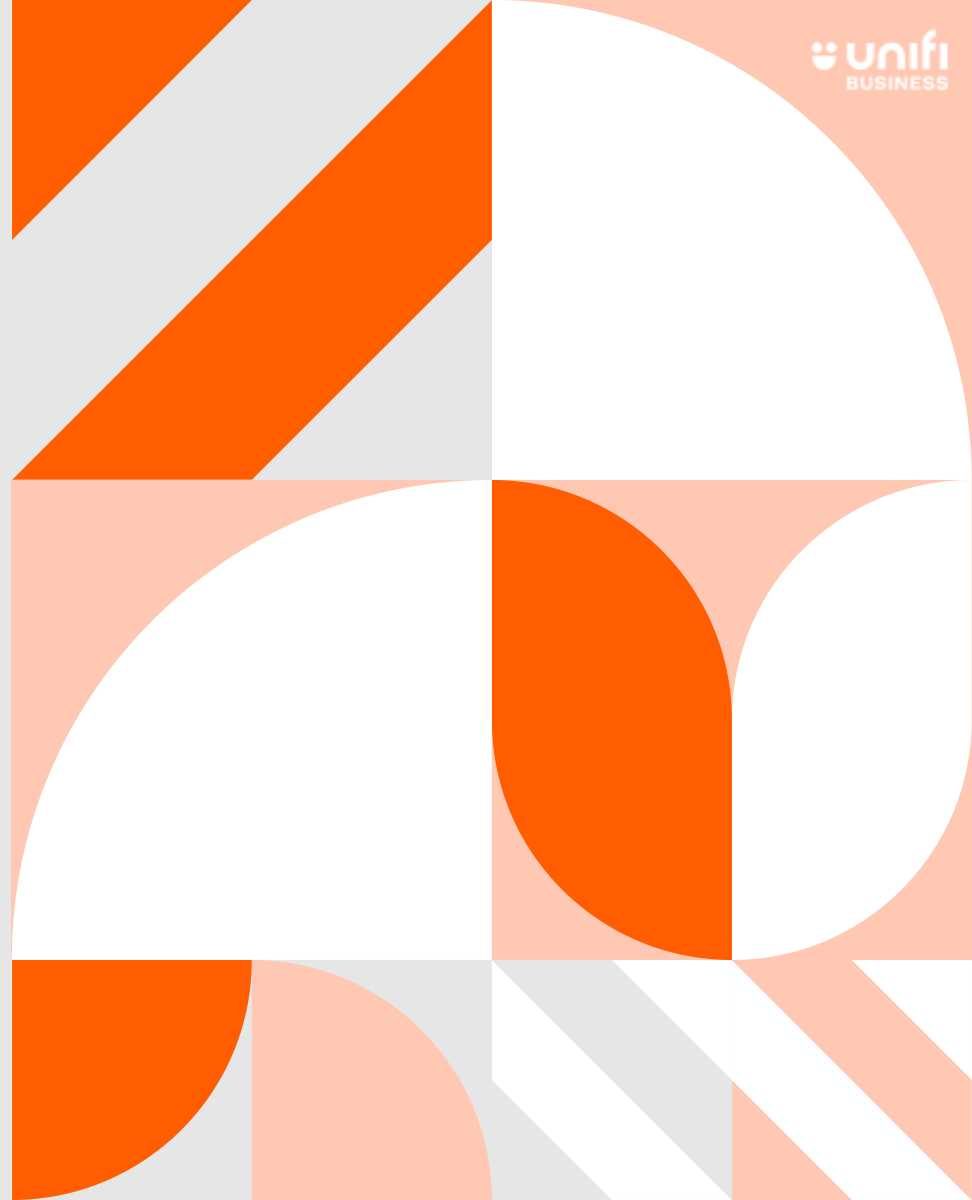

A dialog box titled "Verify your region" with a close button (X) in the top right corner. The dialog contains a light blue box with the text "Region: Malaysia" and "Language: English". Below this is a green button labeled "Next". At the bottom, there is a note: "You can change the region settings by contacting Customer Service."

Step 4
Key in Activation Code (provided in the email)

A page titled "Licenses" with a sub-header "Add activation code". The page includes a text input field with a placeholder "XXXXX - XXXXX - XXXXX - XXXXX". Below the input field is a note: "Your license term can start immediately after an activation code has been added! [Details](#)". At the bottom of the form is an "Add" button. A link at the very bottom says "Don't know what an activation code is? [Click here](#)".

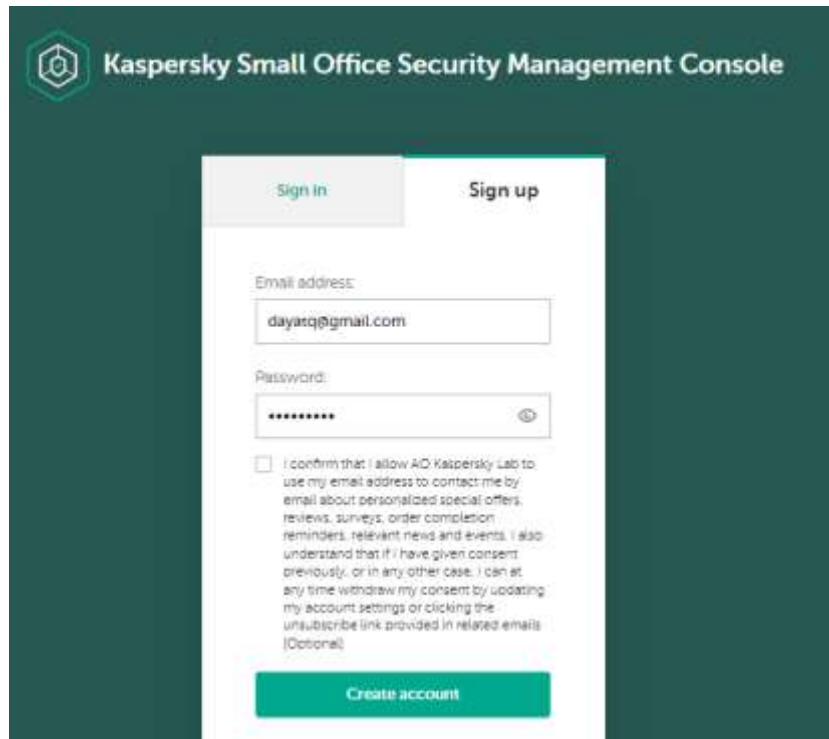

INSTALLATION

KSOS MANAGEMENT CONSOLE

Step 1

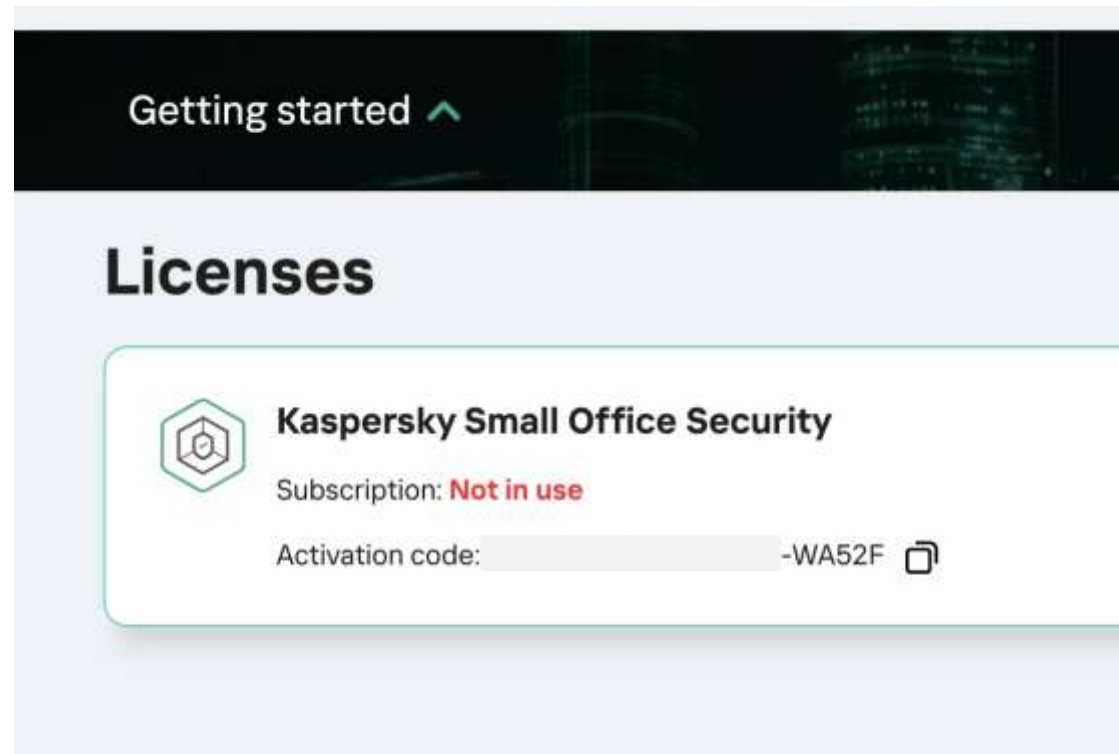

Log on: <https://ksos.kaspersky.com/>

The screenshot shows the 'Kaspersky Small Office Security Management Console' sign-up page. It features a dark green header with the Kaspersky logo and title. Below the header, there are two tabs: 'Sign in' and 'Sign up'. The 'Sign up' tab is active. The form includes an 'Email address' field with the value 'dayarq@gmail.com', a 'Password' field with masked characters and an eye icon, and a checkbox for consent. The consent text reads: 'I confirm that I allow AO Kaspersky Lab to use my email address to contact me by email about personalized special offers, reviews, surveys, order completion reminders, relevant news and events. I also understand that if I have given consent previously, or in any other case, I can at any time withdraw my consent by updating my account settings or clicking the unsubscribe link provided in related emails (Optional)'. A green 'Create account' button is at the bottom.

Step 2

You can see your current KSOS plan. **Click on the plan name.**

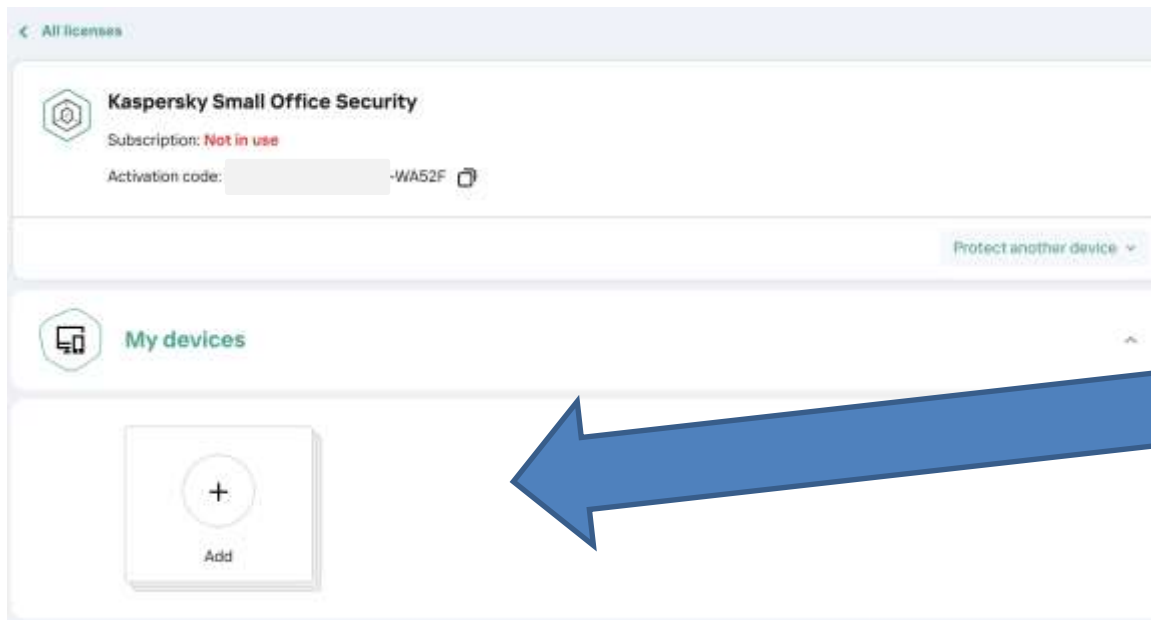

The screenshot shows the 'Licenses' page in the Kaspersky Small Office Security Management Console. The page has a dark header with 'Getting started' and an upward arrow. The main content area is light blue and features the title 'Licenses'. Below the title, there is a license card for 'Kaspersky Small Office Security'. The card includes the Kaspersky logo, the product name, the subscription status 'Subscription: Not in use', and the activation code '-WA52F' with a copy icon.

INSTALLATION

Step 3

KSOS console page. You can **view all your devices** tag with the license

Step 4

Click Add button to install

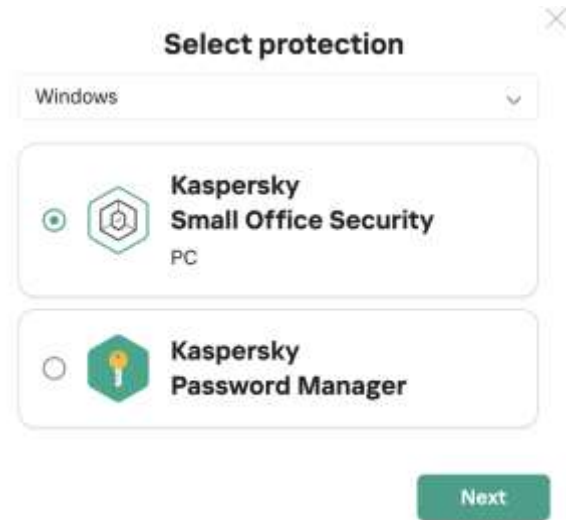

INSTALLATION

Step 5

Choose which **type of device** you want to protect and click **Next**

The screenshot shows a dialog box titled "Select protection" with a close button (X) in the top right corner. A dropdown menu is open, showing "Mac" as the selected option. Below the dropdown, a list of device types is displayed: "Windows", "Mac", "Android", "iOS", and "Windows Server". A green "Next" button is located at the bottom right of the dialog.

The screenshot shows a dialog box titled "Select protection" with a close button (X) in the top right corner. A dropdown menu is open, showing "Windows" as the selected option. Below the dropdown, two security options are listed: "Kaspersky Small Office Security PC" (with a radio button selected) and "Kaspersky Password Manager" (with a radio button unselected). A green "Next" button is located at the bottom right of the dialog.

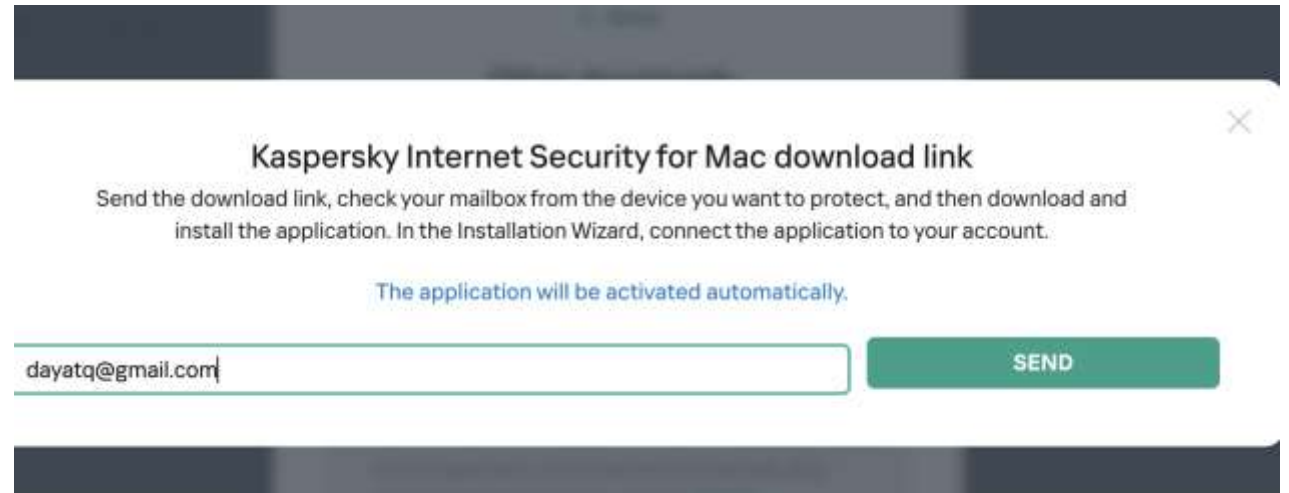

INSTALLATION

Step 6

Click **Download** to download to your device, or Other downloads if you want to send the installer to other using email. Repeat step 3 if you want to install to other devices.

The screenshot shows the Kaspersky website interface. At the top, there is a green hexagonal icon with a laptop. Below it, the text reads "Kaspersky Internet Security for Mac". A light blue box highlights the "Kaspersky Small Office Security Subscription" with a green circle icon and "93/93 days left". At the bottom, there is a green button labeled "Download for Mac" and a link for "Other downloads".

The screenshot shows a dark grey modal window titled "Kaspersky Internet Security for Mac download link". It contains the following text: "Send the download link, check your mailbox from the device you want to protect, and then download and install the application. In the Installation Wizard, connect the application to your account." Below this is a blue link: "The application will be activated automatically." There is a text input field containing "dayatq@gmail.com" and a green button labeled "SEND".

To send installer to others, e.g other branches, you can send using links from email.

You don't have to key in Activation key anymore every time you install to other devices.

INSTALLATION

Final Step : You can view and manage all your devices protected by Kaspersky Small Office Security inside KSOS Management Console

The screenshot displays the Kaspersky Small Office Security Management Console interface. At the top, there is a header for "Kaspersky Small Office Security" with a gear icon. Below this, the subscription status is shown as "Active" and the payment period as "Paid until: Oct 23, 2023". An activation code "HDS2Y-9PBBH-6XYZY-H1JTU" is also visible. A "Protect another device" button is located on the right side of the header. The main section is titled "My devices" and features a filter bar with "All", "Desktop", and "Mobile" options. Below the filter bar, there are six device cards: "H7-Laptop (Desktop)", "DESKTOP-QLCG3QG (Desktop)", "Mi 9T Pro (Mobile)", "H7 (Desktop)", and "Mi 9T Pro (Mobile)1". A sixth card, labeled "Add", contains a plus sign icon, indicating the option to add more devices.

The background features a vibrant orange field with abstract geometric elements. On the right side, there are large, overlapping shapes: a white circle, a light gray circle, and a light orange circle. Diagonal stripes in white and light gray are scattered across the composition, some appearing as thin lines and others as larger, semi-transparent blocks. The overall aesthetic is modern and minimalist.

THANK YOU
