SPEED TEST

<p>19</p>	<p>How do I check the speed of my unifi Biz?</p>	<ul style="list-style-type: none"> Once your unifi Biz has been activated, you can run a speed test via http://speedtest.tm.com.my/.
-----------	---	---

<p>20</p> <p>I am an existing unifi Biz customer and planning to upgrade to unifi Biz. What do I need to do after TM has successfully upgraded my speed / package?</p>	<ul style="list-style-type: none"> Step 1: You are required to turn off your wireless router for 10 minutes to allow new configuration to take place before you can enjoy your new speed. Step 2: Once done, you can start testing your unifi speed at this link http://speedtest.tm.com.my/. Step 3: Click the 'GO' button on the front page and wait for the test to complete. <div style="text-align: center;">  <p>The screenshot shows the unifi speed test interface. At the top left is the TM logo. At the top right is a 'SPEEDTEST' button with a refresh icon. In the center is a large orange circle with the word 'GO' inside. Below the circle is the Telekom Malaysia Bhd logo and 'Kuala Lumpur'. At the bottom are four circular icons: a left arrow, a refresh symbol, a down arrow, and an up arrow. At the very bottom, there is a small line of text: 'All trademarks of Ookla, LLC, including Speedtest®, are used under license.'</p> </div>
---	--

- Step 4: The test will show the result of your current upload and download speeds.

IMPORTANT NOTES:

- Before you perform the speed test, please stop any ongoing downloading activities and shut down any programmes that may be utilising your connection i.e P2P, streaming, etc.
- Speed test can be done over wireless, however, for accurate results, it is recommended that the test to be done over wired connection by using LANcable provided during your unifi Biz installation.
- Simply plug the LAN cable from your computer to your wireless router LANport LAN1 to LAN3 (any of them).

21 Why didn't I get the speed as advertised?

- unifi Biz is a wired broadband service. Wireless connectivity is a complimentary feature offered to our customer via the wireless router and it is subject to interference and obstructions factor. Check out our website <https://home.unifi.com.my/unifi-experience> to learn more.
- Internet access speed may be affected due to several factors such as:
 - Locations of websites; where users may experience lower speed from international websites;
 - Capacity of visited web server, where some web servers cannot cope

		<p>with huge traffic demand from users OR do not have enough capacity OR wheredownload speed is restricted to ensure fair level of service;</p> <p>(c) Network congestion as a result of network maintenance or outages</p> <p>(d) Running multiple applications simultaneously like using other applications such as Peer-to-Peer e.g.: BitTorrent</p> <ul style="list-style-type: none"> ▪ Multiple users sharing the unifi Biz bandwidth at customer’s premises at the same time.
<p>22</p>	<p>What can I do to improve the speed via wireless connectivity?</p>	<p>(c) We recommend you to practise these tips in order to improve the speed via wireless connectivity:</p> <ol style="list-style-type: none"> a. HEAT - Place your wireless router away from areas with high temperatures as heat will affect the router performance and browsing experience. <ul style="list-style-type: none"> • Wireless router should be placed in an open area to allow heatventilation. • Place the broadband equipment next to each other instead of stackingit up to reduce the risk of overheating. b. DISTANCE – Wireless router has distance limitations when it comes to signal range. As distance increases, the signal becomes weaker. <ul style="list-style-type: none"> • Consider placing your Wireless router in an area where you would frequently do your browsing activities. c. OBSTRUCTION – WiFi signal efficiency will decrease when it passes through physical obstruction e.g.: thick walls, metals and solid objects. <ul style="list-style-type: none"> • Consider placing your Wireless router in an open area to maximize signal reception • Avoid placing your router in a closed cabinet, secluded room or under the stairs. d. ELECTROMAGNETIC INTERFERENCE – Signal waves generated by home appliances such as microwave ovens, refrigerators, baby monitors can interfere with your WiFi connectivity. <ul style="list-style-type: none"> • Place your Wireless router away from the home appliances • Avoid sharing the power socket that is connected with the home appliances. e. WIFI SECURITY PASSWORD – A user may hack into your WiFi security password to get free connectivity. The more users connected to your Internet, the more bandwidth will be consumed; thus affecting your browsing experience. <ul style="list-style-type: none"> • Consider setting a unique and strong WiFi security password. • Consider changing your WiFi security password from time to time. <p>Alternatively, you can visit this link for further information on tips to enhance your wireless connectivity speed.</p>

For high rise premises, owners are required to make arrangement with Building Management Office for installation permission, internal cabling and access to telecommunication room. 5. For internal cabling, additional charges will be applied for standard cables more than 50 meters and payment will be made directly to the contractor. 6. For other optional installation e.g. wiring inside ceiling or external cabling (pole to ground with surface cabling to premises), you may appoint your own contractor or deal directly with TM appointed contractor. Payment will be made directly to the contractor. 7. Please provide a correct and valid billing email address & mobile phone number. TM will send your monthly bill via e-Bill to your registered email address. Apart from e-Bill, you will also receive SMS text notification within 7 days after the bill is ready. The content of the SMS is the bill amount, bill due date and unifi portal link to view & pay the bill. Your bill is also accessible at unifi portal (unifi.com.my) and myunifi app. ▪ All unifi Biz equipment provided by unifi is covered by 12 months manufacturer’s warranty.
