Section D: General Information

1. Why am I being double-charged in my first (1st) bill for the Add-on Device plan subscription?

- In your first bill, you may notice a double charge for the device because the smart device subscription is not prorated. Only your Unifi Business broadband charges are prorated.
- Here is an example based on the iPad 11" WiFi 128GB at RM20/month, with a 300Mbps plan on a 36-month contract:
 Month 1 bill: RM20 (Month 1) + RM20 (Month 2) = RM40
 Month 2 to Month 36 bills: RM20 per month
 Total charges for the iPad: RM1,599—you are still only be charged for 36 months in total.
- The charges are based on calendar months. You can refer to the "Start Date" and "End Date" on your bill to check the actual billing period. Rest assured, even though the first (1st) bill reflects two (2) months of device charges, you will only be billed for the full 36-month subscription period and not more.

2. Can I change my subscription plan within the contract period?

- Plan changes are not possible within the contract period.
- If you downgrade or change your Unifi Business package speed within the 36-month contract period, a penalty fee will apply based on the remaining months of the device's

3. Is relocation or transfer of ownership allowed during the contract period?

- Relocating your service is allowed, subject to service availability in your new area. However, if there are changes in infrastructure or technology (e.g., FTTH to VDSL), you may no longer be able to maintain the same plan and may need to downgrade to another package.
- If your new location does not have TM infrastructure, you have the following options:
 - Subscribe to Unifi Air.
 - Terminate your current service (subject to early termination charges for the smart device if terminated within the 36-month contract period).
- Transfer of ownership is allowed after the contract period ends, subject to the terms and conditions for relocation and transfer of ownership. However, streaming app (OTT) entitlements, if applicable, are not transferable to the new owner.

4. How will I be billed?

- You will receive a single bill for your subscriptions.

5. What should I know about service termination?

- You may request service termination by visiting any Unifi Store outlet or calling the Unifi Contact Centre at 100.
- Early termination is not allowed. If you proceed, a fee will cover the remaining subscription and the early termination charge for the free smart device will be based on the remaining contract months, using the Recommended Retail Price (RRP).

Early Termination Penalty

(Current Unifi Business Monthly Subscription Plan Price (<i>calculated based on the price before discounts</i>) X Remaining Contract Period in months)	+	(Device Recommended Retail Price (RRP) / 36 months X Remaining Contract Balance)	=	Early Termination Penalty
--	---	--	---	---------------------------

Sample case:

Unifi Business Broadband package price: RM139.00 (Unifi 300Mbps)
Device recommended retail price: RM1,599.00 (Apple iPad (A16) Wi-Fi 128GB)
Remaining contract: 12 months

Penalty Calculation:

$(RM139.00 \times 12 \text{ months}) + [(RM1,599.00 / 36 \text{ months}) \times 12 \text{ months}]$
= RM1,668.00 + RM533.00
Total early termination penalty = RM2,201.00
