2. Can I relocate my service or transfer ownership during the contract period?

- Yes. You can relocate your service, subject to service availability at your new address. However, if your new address requires a different network infrastructure or technology (e.g., FTTH to VDSL), you may not be able to continue with the same plan and may need to downgrade within the same package family.
- If TM infrastructure is not available at your new address, you can:
 - Subscribe to Unifi Air; or
 - Terminate your current service. If you terminate your service within the contract period, early termination charges for the smart device will apply.
- You can transfer ownership only after your contract period has ended, subject to the applicable terms and conditions. Please note that streaming app (OTT) entitlements, if applicable, cannot be transferred to the new owner.
